## BUILDING TRANSFORMS LIVES IN GUATEMALA

Dear donors, partners, and volunteers of Constru Casa, we want to express our profound gratitude for your transformative support this quarter. Your ongoing generosity, coupled with the tireless efforts of our volunteers, propels our work and changes lives. To all our collaborators, we invite you to continue building a bright future together.

## OUR WORK IN ACTION

In Aguacatán, Huehuetenango, Constru Casa, in collaboration with ASOPEDI, not only built homes but also transformed the lives of residents by establishing a community center to provide comprehensive support, especially for children with disabilities.

With the support of organizations such as the GERDD Foundation from Spain, the Catalan Foundation, the Transitions Association, and the Municipality of Aguacatán, we achieved this milestone.

Initiative: Create a safe and hopeful environment for Cecilia and her family, going beyond building a home. Sincere thanks to Ohio State University volunteers for embodying the spirit of solidarity and transformation. Together, we construct not just structures but a future brimming with opportunities and realized dreams.
